Subject preference indicator for 1st Year 2021/2022.

Dear Parent/Guardian,

We hope you are all well and we welcome you into our school community. We look forward to being a partner in your child's education over the coming years.

All junior cycle students at Coláiste Pobail Osraí study:

Irish, English, Maths, Science, History and Wellbeing.

Four other subjects are chosen in November after having taster modules in different subject areas:

French, German, Business Studies, Art, Music, Woodwork, Technology, Home Economics and Geography. (A foreign language is compulsory.) (All running, subject to interest)

To work out the subject bands we need to get an indication as to the preferences now so we can figure out what subjects will be offered and/or opposite each other.

Every student will be given an opportunity to sample all subjects and make a considered choice in November, where there will be an opportunity again to give preferences, but we need to set the options now based on the student's feedback.

1. Please download the VSware App. (Search for VSware on either android play store or IOS app store)

2. To insert subject options please follow the following instructions <https://support.vsware.ie/parent-app-notes-options>
3. Fill out, in order of preference, starting with first choice through to seventh choice.

Information re subjects available on <https://curriculumonline.ie/Junior-cycle/>

We will do our utmost to accommodate all choices but sometimes it may not be possible as subjects are going to be opposite each other and space in some subjects may be an issue. Subjects may not run if there is not enough interest.
